

DELIVERED · DAY 14

Foundation Package.

The editorial brain of the engagement. Brand identity, 90-day publishing plan, content batch, compliance workflow, and live tracking infrastructure — all of it ready to operate from Day 15 forward.

Prepared by BotMakers Inc. · May 2026 · For American Fusion Inc. (OTC: AMFN)

What This Package Is.

This is the Day-14 Foundation milestone deliverable that triggers the second half of the Month 1 payment per the signed engagement quote.

The Premise

American Fusion is operating in the most capital-rich, narrative-hungry, and consequential energy market in modern history — and, on the day this engagement began, with zero owned audience, zero coordinated brand voice, and zero digital footprint capable of supporting the company's ambitions in defense procurement, capital markets, talent acquisition, or commercial offtake.

Commonwealth Fusion Systems has 30,663 LinkedIn followers. Helion has 26,822. American Fusion has zero. The technology gap is debatable. The visibility gap is not. This package closes the visibility gap at the infrastructure level so that the next 90 days can close it at the audience level.

What's Inside

Six documents. Together they constitute the editorial operating system for the entire 12-month engagement — not just Month 1.

#	Deliverable	Format	What it does
00	Package Overview (this document)	PDF	Orientation. How to read the package, who owns what, what happens next.
01	Brand Guidelines	PDF	Color palette, typography, logo system specs, voice & tone, three-lane founder architecture, do/don't language. Every editor and designer works from this.
02	90-Day Editorial Calendar	Excel	Day-by-day publishing plan across all six channels, ~340 content pieces total. Filtered views per channel. Cadence: LinkedIn 5/wk company + 7/wk executives, X 10/wk, Instagram 3/wk, YouTube 2/mo, Newsletter 2/mo.
03	First Content Batch	Word	33+ ready-to-publish pieces. LinkedIn company (10), Nelson (5), Reid (3), Hawkins (2 with LEGAL flag), X (10), Instagram (3), Newsletter Issue 01 (full), YouTube Video 01 outline + production notes.
04	Workflow & Compliance	PDF	GREEN/YELLOW/RED content classification, 5-stage pre-publication workflow, Reg FD guardrails, crisis communications protocol (5 scenarios), response templates for common inbounds.
05	KPI Dashboards	Excel	90-day targets, 12-month targets, weekly follower tracker (8 channels), content output vs. plan, engagement quality, competitive benchmark (Commonwealth/Helion/TAE/General Fusion/Thea/AMFN), earned media log, inbound inquiry log.

06	How to Use This Package (Operator's Manual)	PDF	Detailed instruction manual. Mental model, weekly/monthly operating rhythm, how to read the editorial calendar tab-by-tab, post lifecycle walkthroughs, how to update the dashboards, common-scenario playbook, glossary. Read this before opening anything else.
----	---	-----	---

What Happens From Day 15.

The Foundation package is built. From Day 15 forward, the Content Engine retainer kicks in. Here is the operating rhythm.

Week of Day 15 — Activation

- **AMFN team reviews this package end-to-end** with BotMakers in a 60-minute kickoff call. Approves voice and three-lane architecture. Confirms named approver and counsel-CC list.
- **Securities counsel reviews** the Reg FD workflow (Deliverable 04) and any RED-classified posts in the first batch (Hawkins posts, milestone references).
- **Nelson, Reid, and Hawkins each approve their named posts** in Deliverable 03 for voice and substance — typically 30–45 minutes per executive.
- **Channels go live in sequence:** LinkedIn Company first (Day 15), executive accounts (Day 16–17), X (Day 16), Instagram (Day 17), Newsletter Issue 01 (Day 18), YouTube Video 01 (Day 24).
- **Photography session** scheduled at the Kepler facility to support the second batch.

Standing Cadence (Months 2–12)

- **Weekly:** BotMakers ships next batch of drafts (Monday). AMFN approves (by Wednesday). Posts publish per calendar (Thursday–Sunday). Weekly dashboard update (Friday).
- **Bi-weekly:** Newsletter publishes (1st and 15th).
- **Monthly:** 60-minute strategy review with AMFN executives. Two YouTube videos publish (2nd and 4th Wednesdays). Competitive benchmark snapshot updated.
- **Quarterly:** Full executive review — what's working, what's not, target recalibration. Earned-media outreach push aligned with quarterly investor cycle.

What This Package Is NOT

Worth being explicit about scope boundaries so expectations are aligned from Day 15:

- **Not the rendered logo files.** Deliverable 01 specifies the logo system; production rendering in Illustrator/Figma is a separate scope (or AMFN's design partner).
- **Not live social media accounts.** Claiming and configuring the LinkedIn / X / YouTube / Instagram accounts requires AMFN authorization and a working session with the AMFN team — scheduled for Week of Day 15.
- **Not executive LinkedIn profile rebuilds.** Nelson, Reid, and Hawkins profile optimization happens in a 1:1 session with each executive (their account, their credentials).
- **Not the americanfusionenergy.com footer integration.** Social icons and newsletter signup wiring requires site access — scheduled with AMFN's web team in Week of Day 15.

-
- **Not professional photography.** The Texatron unit photography session is scheduled separately and feeds the next content batch.
 - **Not securities counsel.** The Reg FD workflow in Deliverable 04 is operational scaffolding. AMFN's counsel makes all final disclosure decisions.

Roles & Ownership.

Who owns what in the standing operation, starting Day 15.

Role	Owner	Responsibility
Editorial Lead	BotMakers	Drafts every post. Maintains editorial calendar. Tracks performance in dashboards. Surfaces approval requests.
Strategy Lead	BotMakers	Voice/tone integrity. Internal review (Stage 2). Monthly strategy reviews. Quarterly recalibration.
Designated AMFN Approver	AMFN (single named individual)	Approves GREEN and YELLOW posts. Escalates RED to counsel. 48-hour SLA.
Executive Voice — Technical	Brent Nelson (Kepler CEO)	Approves his own ghost-written posts. Provides raw material (engineering decisions, lab updates, technical perspectives) once per week.
Executive Voice — Defense	Samuel Reid	Approves his own ghost-written posts. Provides Procurement Note input twice per month for newsletter.
Executive Voice — Capital	Richard Hawkins (CEO)	Approves his own posts (all RED). Coordinates with counsel on disclosure timing. Quarterly investor update video.
Securities Counsel	AMFN counsel of record	Reviews YELLOW posts within 24 hours. Reviews and approves RED posts before publish. Final authority on disclosure questions.
Photography / Production	AMFN + BotMakers coordinated	Quarterly facility photography session at Kepler. Monthly YouTube shoot. Video production handled by BotMakers production partners.

The work begins now.

This package is the editorial brain of a 12-month engagement built to take American Fusion from zero owned audience to a credible, defensible footprint in the second cohort of the U.S. fusion category. Every document in this package supports that single objective. Read it, mark it up, push back on it. Then let's ship.
